Ayer's Hair Vigor,

natural Vitality and Color.

A dressing which is at once agreeable, healthy, and offectual preserving the mir. It soon restores faded or gray hair to its original color, with the

gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the forma-tion of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benofit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Continuing neither oil nor dye, it does not soil white cambrie, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

"Pete," bound to know what was up, gave chase and overhauled the fellow near the furniture factory, and made him return with him to the store. He was then turned over to an officer and lodged in ail. This standard article is compounded with the greatest care. Its effects are as wonderful and

as satisfactory as ever. It restores gray or faded hair to its youthful color.

. It removes all emptions, itching and dandruff. It gives the head a cooling, soothing sensation of great comfort, and the scalp by its use ecomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong. As a dressing, nothing has been found so effectual or desirable. A. A. Hayes, M. D., State As-
